ENVOI | Portable Battery Powered Presentation Speaker

2 WAY

Perfect for entertainment events and public speaking engagements, this compact, easily-transportable system solves the dilemma of amplifying voices and music to a large audience when there is no access to AC power.

Envoy is completely wireless, with up to 12 hours of battery life per charge. It features a hand-held wireless microphone for mobility and even a Bluetooth receiver allowing users to stream music right from their smartphone or tablet. In addition, a fully-featured built-in MP3 player can handle any playback files stored on SD card or USB thumb drive for total BYOD compatibility.

Envoy's superior crowd-pleasing sound comes from a potent 240-Watt amplifier built around cutting-edge Class D technology. Expertly tuned for speech and music applications, the robust 10" woofer delivers impressive lows while a phase-aligned tweeter sparkles with high-frequency clarity and articulation. From corporate meetings to beachside barbecues, Envoy brings the sound you need to make any event a success.

- 2-way active speaker (10" LF driver, 1" HF driver)
