

SMS FLATSCREEN CH ST

600/1150/1450/2000

A view from above.

SMS Flatscreen CH ST is an elegant bracket for heavier screens. Solid, reliable construction is combined with classic design that blends in perfectly with any interior. Despite its reliable construction, the CH ST still allows complete freedom of movement – you can tilt your screen forward and swivel it from side to side. The height of the pillar is also adjustable. Visitors will look at this bracket with an admiring eye.

New!

The adapterplate has a new design, which is easier and more user friendly. There is also a new design on the pillar which allows you to, stepless, raise and lower you screen and shelves.

The new SMS Flatscreen H2 Unislide is included in the bracket.
